Profile

Graduate in Systems Analysis and Development, aiming to become a full-stack developer. I am seeking an opportunity to apply and expand my technical knowledge, contribute to the company's growth, and advance professionally.

Education

Faculdade de Engenharia de Sorocaba – FACENS　　　　　**Aug. 2022 – Dec. 2024**

Associate Degree in Systems Analysis and Development

Experience

Assessoria Contábil Gouvêa　　　　　**Aug. 2015 – May. 2025**

Office Assistant

Assisted with accounting processes, including issuing and managing invoices, SPED, DCTF, payroll, employee terminations, e-Social, and opening, modifying, and closing companies.

Nexamed　　　　　**May. 2025 – Present**

Junior Systems Analyst

I work on modernizing systems by developing and improving existing features. I also contribute to bug fixing, code review, and enhancing technical documentation, focusing on performance and maintainability.

Projects

TechTree　　　　　**Feb. 2024**

TechTree offers continuous skill development through Individual Development Plans (IDPs) and gamification that enhances engagement and motivation for learning. Users progress through skill categories, access additional lessons, and are encouraged through related and rewarding activities. These features include setting clear goals and balancing challenge and reward to maximize long-term IT skill development..

HelpCom　　　　　**Aug. 2023**

HelpCom aims to assist small business owners in the confectionery sector with product pricing management, easing pricing challenges and providing a clearer overview of costs, expenses, and profit margins. This supports inventory management and sales strategy decisions, contributing to the success and sustainability of their businesses.
